

# In Common No More: The Rise of Inequality in America and Its Impact on Our Future

Income inequality in America has grown dramatically in recent decades, and the gap between the rich and the poor has never been wider. This article explores the causes and consequences of inequality in America, and discusses what can be done to address this growing problem.

There are a number of factors that have contributed to the rise of inequality in America, including:

- **Globalization:** The increasing interconnectedness of the global economy has led to a decline in manufacturing jobs in America, which has disproportionately affected low-skilled workers.
- **Technological change:** Automation and other technological advances have also led to a decline in manufacturing jobs, as well as a decrease in the demand for low-skilled workers.
- **Changes in the labor market:** The decline of unions and the growth of the service sector have made it more difficult for workers to bargain for higher wages.
- **Government policies:** Tax cuts for the wealthy and deregulation of the financial industry have exacerbated inequality.

Income inequality has a number of negative consequences for society, including:

- **Reduced economic growth:** Inequality can lead to reduced economic growth by stifling innovation and entrepreneurship.
- **Increased poverty:** Inequality can lead to increased poverty by making it more difficult for people to move up the economic ladder.
- **Social unrest:** Inequality can lead to social unrest and political instability.
- **Health problems:** Inequality can lead to health problems such as heart disease, stroke, and diabetes.
- **Shorter life expectancy:** Inequality can lead to shorter life expectancy.

There are a number of things that can be done to address inequality in America, including:

- **Increase the minimum wage:** Raising the minimum wage would help to increase the incomes of low-skilled workers and reduce poverty.

- **Invest in education and job training:** Investing in education and job training would help to increase the skills of workers and make them more competitive in the global economy.
- **Strengthen unions:** Unions can help workers to bargain for higher wages and benefits.
- **Reform the tax code:** Reforming the tax code to make it more progressive would help to reduce inequality by shifting the tax burden from the poor and middle class to the wealthy.
- **Regulate the financial industry:** Regulating the financial industry would help to prevent the excessive risk-taking that led to the 2008 financial crisis.

Income inequality is a serious problem in America that has a number of negative consequences for society. There are a number of things that can be done to address inequality, including increasing the minimum wage, investing in education and job training, strengthening unions, reforming the tax code, and regulating the financial industry. By working together, we can create a more just and equitable society for all Americans.
