The New Yorker was founded by Harold Ross and Jane Grant in 1925. Ross was a former journalist who had worked for The New York Times and The Wall Street Journal. Grant was a writer and editor who had been involved in the avant-garde literary scene in New York City. The magazine's first issue was published on February 21, 1925, and it quickly became a critical and commercial success.

The New Yorker's early years were marked by its distinctive style and voice. The magazine's writers were known for their wit, intelligence, and sophistication, and its cartoons were often biting and satirical. The magazine also published some of the most important literary works of the 20th century, including short stories by F. Scott Fitzgerald, Ernest Hemingway, and John Cheever.

The New Yorker continued to thrive in the post-World War II era. The magazine's circulation grew steadily, and it became a must-read for the American intellectual elite. The magazine also began to publish more long-form journalism, and its writers became known for their in-depth reporting and analysis of American society.

The New Yorker has continued to evolve in recent years. The magazine has launched a number of new digital initiatives, and its website and social media channels have become increasingly popular. The magazine has also expanded its coverage of international affairs, and it now has a global readership.

The New Yorker is a unique and important American institution. It is a magazine that has been at the forefront of American culture for nearly a century. The magazine's archives are a valuable resource for historians, journalists, and anyone who wants to understand American life.
